Note that both the turbine filters and the T75G pressure tubes are consumables that will wear out, so it's best to keep extras on hand.

The whip hose makes it much easier to spray in tight spaces such as bookshelves or inside a cabinet.

The gravity spray gun stand keeps the spray gun handy at whatever place you choose, so you can keep the turbine further away to minimize heat where you're spraying.

Extra air caps make for smoother results with thinner or thicker coatings. Help Choosing an Air Cap Size. Package 6 includes a protective air cap case. Packages 7 and 8 include the full set of T70 air caps plus the protective case.

Package 8 includes two fluid containers for spraying larger surfaces. The metal #9775 gravity cup holds 1000cc (33.8 oz), making for fewer pauses to fill the fluid cup. The 2-quart makes it easier to spray even larger surfaces, and keeps the fluid container weight off your hand.
